- Github Pages
- YAML Front Matter

Jekyll 2.0

- <https://github.com/blog/1867>
- Collections
- Native Sass & CoffeeScript support
- YAML Front Matter defaults
- .json files in `_data`

I <3 nodeJS

- Metalsmith vs Jekyll
- Assemble vs Middleman

- But, I still prefer use Github Pages in Jekyll Structure

Jekyll Simulation

- noflo-jekyll
- Heckle
- Darko
- Assemble Jekyll

- Metalsmith + Grunt

From Jekyll to Gulp.js

- <http://www.rioki.org/2014/06/09/jekyll-to-gulp.html>
- The workflow of Metalsmith just like gulp
- From Simulation to Emulation?

Liquid Template

- <http://liquidmarkup.org/>
- liquid-node
- tinyliquid

- Consolidate.js does not support yet
- Use Swig instead

Let's build

- <https://github.com/f2etw/f2etw.github.io>
- Design
- Content

Continuous Integration

- <https://travis-ci.org/f2etw/f2etw.github.io>
- Jekyll vs Grunt vs gulp
- `diff -r dir1/ dir2/`
